COVID 19 – Stage 4 Restrictions

Dear Valued Customers,

Following the release of the Victorian Government's Stage 4 restrictions I can confirm that Geordi Stainless will remain open and operate as a permitted business to provide essential products to the Food, Dairy, Beverage and Pharmaceutical industries.

To ensure the health and safety of our customers and employees a stringent COVID 19 safety plan has been implemented. The safety plan is paramount to the wellbeing of Geordi Stainless and the community.

Your continued support is very much appreciated, our thoughts are with you, your colleagues and your families during these challenging times.

Kind regards

Stephen James
Manager
